Medical Services Proposal

INTRODUCTION

The COVID-19 pandemic is having widespread effects on businesses across the country. We have all been forced to adapt to these unusual conditions, and we must work through this together. At Transitions Rehabilitation + Healthcare our goal is to establish operational resilience by implementing practices to keep your employees safe. Our certified health practitioners will assist in keeping your business healthy and working.

SERVICES OFFERED

Transitions Rehabilitation + Healthcare hereby submits the following services:

Risk Management

Transitions Rehabilitation + Healthcare employs a comprehensive risk management program to mitigate potential risk, exposure, and/or liability. A detailed summary of the risk management program is available upon request.

Staff Screening

Transitions Rehabilitation + Healthcare employs highly trained individuals who are experienced, licensed and support clients' needs. Transitions Rehabilitation + Healthcare will ask comprehensive screening question to employees ensuring their health and safety while working during the Covid-19 pandemic.

Key Personnel

The following individuals are considered "key personnel" due to the critical nature of the roles they play. Nurses will be on call in case of medical emergencies and/or cases of sickness dispute. PSW & healthcare professionals will be on site at all times of business operation.

ID NOW™ COVID-19

A diagnostic platform for qualitative detection of certain infectious diseases to differentiate other viruses from Covid-19 (see section 1.1 for more details).

Digital Non-Touch Thermometer

No-touch design, non-invasive measurement.

Operations Director

Oversight of all project execution and implementation of the risk management program.

1.1

ID NOW™ COVID-19 SARS-COV-2 IN 13 MINUTES OR LESS*

The ID NOW™ platform combines the benefits of speed and accuracy for the fastest molecular results in the market.

The ID NOW™ COVID-19 test returns positive results in 13 minutes or less to enable immediate clinical decisions during the first patient visit.

The easy-to-use ID NOW™ platform is designed for near-patient, point-of-care use in a variety of healthcare settings. *

RELEVANT LICENSES & QUALIFICATIONS

Transitions Rehabilitation + Healthcare is fully licensed and qualified to provide the services listed in this medical services proposal. Relevant licenses and qualifications include:

- Nursing Team/ Registered Practical Nurse
- Personal Support Worker
- Account Manager – Supervisor

Transitions Rehabilitation + Healthcare hereby guarantees that the above-listed licenses and qualifications will be maintained during the entire period during which medical services are provided.
